

Cloud CRM System - Enterprise Requirements v1.0

Confidential - Internal Use Only

Version 1.0

1. Platform Overview

Enterprise-grade CRM platform for mid-market and enterprise sales teams.

Supports 10,000+ concurrent users with multi-tenant SaaS architecture.

Core modules: Lead Management, Sales Pipeline, Contact Management, Analytics, Integrations.

2. Lead Management

REQ-CRM-001: Lead capture from web forms, email, API, and manual entry.

REQ-CRM-002: AI lead scoring (0-100) based on firmographics, engagement, and fit.

REQ-CRM-003: Automated lead assignment rules based on territory, industry, and capacity.

REQ-CRM-004: Lead nurture campaigns with automated email sequences.

REQ-CRM-005: Lead deduplication engine matching on email, phone, and company name.

REQ-CRM-006: Lead source attribution tracking (web, referral, event, outbound).

3. Contact and Account Management

REQ-CRM-007: 360-degree contact view with activity timeline, emails, calls, and notes.

REQ-CRM-008: Account hierarchy support for parent-child company relationships.

REQ-CRM-009: Contact enrichment via Clearbit API with company size, industry, and revenue.

REQ-CRM-010: Custom fields with configurable field types (text, number, date, picklist, lookup).

REQ-CRM-011: Import/export contacts via CSV with field mapping and duplicate detection.

4. Sales Pipeline

REQ-CRM-012: Kanban board view with drag-and-drop deal stage progression.

REQ-CRM-013: Configurable pipeline stages per team (e.g., Discovery, Proposal, Negotiation, Closed).

REQ-CRM-014: Deal value, probability, and weighted forecast calculation.

REQ-CRM-015: Sales activity tracking (calls, emails, meetings) linked to deals.

REQ-CRM-016: Deal aging alerts when deals stall in a stage beyond threshold days.

5. Communication Tools

REQ-CRM-017: Built-in email composer with template library and merge fields.

REQ-CRM-018: Email tracking (opens, clicks, replies) with real-time notifications.

REQ-CRM-019: Click-to-call with automatic call logging and recording.

REQ-CRM-020: Meeting scheduler with calendar availability sharing link.
