

Cloud CRM System - Non-Functional Requirements v1.0

Confidential - Internal Use Only

Version 1.0

1. Performance Requirements

- NFR-CRM-001: Dashboard page load < 1.5 seconds for users with up to 10,000 contacts and 500 active deals.
- NFR-CRM-002: Global search results returned within 300ms for queries across contacts, deals, and activities.
- NFR-CRM-003: Kanban pipeline board must support drag-and-drop with < 100ms visual response and < 500ms database persist.
- NFR-CRM-004: Email sync latency: new emails appear in CRM within 60 seconds of arrival in Gmail/Outlook inbox.
- NFR-CRM-005: Report generation for datasets up to 100,000 rows must complete within 5 seconds.

2. Scalability & Multi-Tenancy

- NFR-CRM-006: Platform must support 10,000+ concurrent users across all tenants with sub-second response times.
- NFR-CRM-007: Single tenant can store up to 5 million contacts and 500,000 deals without performance degradation.
- NFR-CRM-008: Email sync engine must handle 10 million emails per day across all tenants.
- NFR-CRM-009: Lead scoring engine must recalculate scores for 100,000 leads within 5 minutes when scoring model changes.

3. Security & Compliance

- NFR-CRM-010: SOC 2 Type II and ISO 27001 certification required. Annual penetration testing and security audit.
- NFR-CRM-011: GDPR compliance: right to erasure (72-hour SLA), data portability (JSON/CSV export), consent management, DPA available.
- NFR-CRM-012: CCPA compliance: 'Do Not Sell' flag on contact records, opt-out processing within 15 days.
- NFR-CRM-013: SSO via SAML 2.0 and OIDC. MFA required for admin roles. Session timeout: 8 hours active, 30 minutes idle.
- NFR-CRM-014: Role-based access control (RBAC): Admin, Manager, Rep, Read-Only. Field-level security for sensitive fields (revenue, deal value).
- NFR-CRM-015: All API access via OAuth 2.0 with scoped tokens. API rate limiting: 100 requests/minute per user, 10,000/minute per tenant.

4. Availability & Disaster Recovery

- NFR-CRM-016: System uptime SLA: 99.95% (max 21.9 minutes downtime per month). Status page at status.crmcloud.io.
- NFR-CRM-017: Multi-region deployment (US-East, EU-West). Data residency option for EU customers (GDPR requirement).
- NFR-CRM-018: RTO < 10 minutes, RPO < 30 seconds. Cross-region database replication with automatic failover.
- NFR-CRM-019: Daily backups retained for 30 days. Point-in-time recovery within 5-minute granularity.

5. Integrations & API Reliability

NFR-CRM-020: Email provider sync failure: retry with exponential backoff (1m, 5m, 15m, 1h).

Alert after 3 consecutive failures.

NFR-CRM-021: Clearbit enrichment timeout: 5-second limit. If timeout, contact created without enrichment; background job retries.

NFR-CRM-022: Webhook delivery guarantees: at-least-once with HMAC-SHA256 signature. Retry failed webhooks for 72 hours.
