Version 1.0

1. Sales Dashboard Home Screen

REQ-CRM-044: Top navigation bar (56px height, #1A237E indigo) with logo, global search (expandable, 400px), notifications bell (badge count), user avatar dropdown. Search supports contacts, deals, companies, and activities with type-ahead suggestions.

REQ-CRM-045: KPI summary row below nav: Revenue (MTD/QTD toggle), Pipeline Value, Deals Won, Win Rate (%), Avg Deal Size. Each KPI card (180px wide) shows value, trend arrow (green up / red down), and comparison percentage to prior period.

REQ-CRM-046: My Pipeline widget (left 60% of dashboard): mini Kanban showing deal counts and total value per stage. Stage columns color-coded: Discovery (#42A5F5), Proposal (#66BB6A), Negotiation (#FFA726), Closed Won (#4CAF50), Closed Lost (#EF5350). Click stage to expand deal list.

REQ-CRM-047: Activity Feed widget (right 40%): chronological list of recent activities (calls, emails, meetings, notes). Each entry shows: activity type icon, contact name (link), deal name, timestamp (relative, e.g. '2h ago'). 'Log Activity' button at top.

REQ-CRM-048: Upcoming Meetings widget (below activity feed): next 5 scheduled meetings with time, contact name, company, and 'Join' button for video calls. Today's meetings highlighted with blue left border.

REQ-CRM-049: Left sidebar navigation (240px, collapsible): Dashboard, Leads, Contacts, Companies, Deals, Activities, Reports, Integrations, Settings. Active item: indigo background (#3949AB) with white text. Badge counts on Leads (unassigned) and Activities (overdue).

2. Lead Management Screen

REQ-CRM-050: Lead list view with columns: Name, Company, Email, Phone, Lead Score (0-100 with color gradient: red < 30, yellow 30-70, green > 70), Source, Status, Assigned To, Created Date. Table supports sorting, multi-column filtering, and saved views.

REQ-CRM-051: Lead detail panel (slide-in from right, 480px wide): Contact info section, Lead Score gauge (circular, animated), Activity Timeline (calls, emails, page visits), Conversion History, Notes section with @mention support.

REQ-CRM-052: Bulk action bar: 'Assign', 'Change Status', 'Add to Campaign', 'Merge Duplicates', 'Export'. Appears when 1+ leads selected with checkbox. Destructive actions require confirmation modal.

REQ-CRM-053: 'Add Lead' form (modal, 600px wide): fields for First Name, Last Name, Email, Phone, Company, Title, Lead Source (dropdown), Notes. Required fields marked with red asterisk. Duplicate detection runs on email/phone before save.

3. Deal Pipeline Board

REQ-CRM-054: Full-width Kanban board with stage columns. Each column header shows: stage name, deal count, total value. Column width auto-adjusts to content (min 280px).

REQ-CRM-055: Deal cards (280px wide): company logo (40px, rounded), deal name (bold, 14px), company name, deal value (formatted currency), days in stage (red if > threshold), assigned rep avatar (24px). Hover reveals 'Quick View' button.

REQ-CRM-056: Drag-and-drop between stages with visual drop target highlighting. Stage transition triggers: confirmation for backward moves, win/loss reason modal for Closed stages, automatic probability update.

REQ-CRM-057: Pipeline filters bar: Rep (multi-select avatars), Date Range (created/expected

close), Value Range (slider), Tags. 'Save View' button to persist filter combinations. Default views: My Deals, Team Deals, Stale Deals.

4. Contact 360° View

REQ-CRM-058: Full-page contact view with header: name (24px), title, company (link), email (click-to-copy), phone (click-to-call). Action buttons: 'Send Email', 'Log Call', 'Schedule Meeting', 'Create Deal'. Edit pencil icon for inline field editing.

REQ-CRM-059: Tabbed content area: Timeline (all activities chronologically), Emails (synced Gmail/Outlook threads), Deals (associated deals with stage/value), Files (attachments), Notes. Timeline is default tab.

REQ-CRM-060: Right sidebar (320px): Contact Details card (all fields, custom fields below standard), Company Info card (enriched data from Clearbit: size, revenue, industry, tech stack), Related Contacts card (same company).

5. Report Builder Screen

REQ-CRM-061: Three-panel layout: (1) Data source selector (left, 200px) listing objects: Leads, Contacts, Deals, Activities. (2) Field picker with drag-to-add (columns, rows, filters, values). (3) Live preview (right, 60% width) updating as fields added.

REQ-CRM-062: Chart type selector: Bar, Line, Pie, Funnel, Table, Combo. Chart-specific options: stacked/grouped bars, multi-axis lines, donut variant of pie.

REQ-CRM-063: Filter builder: field, operator (equals, contains, greater than, between, is empty), value. AND/OR logic groups with visual nesting (indented blocks). Date filters support relative values (Last 30 Days, This Quarter).
