

Digital Banking App - Product Specification v3.0

Confidential - Internal Use Only

Version 1.0

1. Product Vision

NeoBank Digital is a mobile-first banking application targeting millennial and Gen-Z customers. The app provides fee-free checking, high-yield savings, P2P transfers, and investment features. Target: 500,000 active users within 12 months of launch across iOS and Android.

2. Account Management

REQ-FIN-001: Digital account opening in under 5 minutes with ID verification via Onfido.

REQ-FIN-002: Support for checking, savings, and joint account types.

REQ-FIN-003: Virtual debit card issued instantly upon account approval.

REQ-FIN-004: Physical debit card request with custom design and delivery tracking.

REQ-FIN-005: Account statements generated monthly with PDF download and email delivery.

3. Authentication and Security

REQ-FIN-006: Biometric login (FaceID, TouchID, fingerprint) for all app access.

REQ-FIN-007: Transaction PIN required for transfers over \$500.

REQ-FIN-008: Device binding - new device requires email verification and 24hr hold.

REQ-FIN-009: Real-time login alerts via push notification for every sign-in.

REQ-FIN-010: Card freeze/unfreeze instantly from app settings.

4. Transaction Features

REQ-FIN-011: Real-time push notification for every debit and credit transaction.

REQ-FIN-012: Transaction categorization (food, transport, shopping, bills, entertainment).

REQ-FIN-013: Transaction search with filters for date, amount, category, and merchant.

REQ-FIN-014: Merchant logo and location display on transaction details.

REQ-FIN-015: Recurring transaction detection with bill prediction alerts.

5. P2P Transfers

REQ-FIN-016: Send money to other users using phone number or email.

REQ-FIN-017: Transfers under \$1000 settle instantly; above require 1 business day.

REQ-FIN-018: Request money feature with customizable message.

REQ-FIN-019: Split bill functionality for group expenses.

REQ-FIN-020: Transfer history with receipt sharing capability.
