Information required	Add your information below
Is this part if a bigger initiative?	This is part of the Play to Win initiative, with \$5M in funding for 2025 broken into two phases of work
What is the Existing Problem that needs to be resolved?	Close the competitive gap to Telus IQ & deliver near real time data 10-15min refresh,
Opportunity (including in-scope Products)	Details in Charter- cannot cut & paste for some reason!
Is there a dependency on 3rd party, and where?	Potential for 3rd party integration with BBSSC (ServiceNow), MDM/UEM enrollment, policy updates, etc.

Project Dependencies	Matt Moore is priming a project delivering other API's that could tie into this project; risk of resource gaps for wireless SMEs
Reusability	Solution needs to work for all BBSSC customers (all enterprise & medium customers)
Continuation:	This project is delivering enhancements to BBSSC & developing the overall Self Serve roadmap leveraging both internal and external solutions to enable Bell to provide enhanced, & industry leading self serve solutions
Criticality/Benefits/Penalties:	Phase 1- Competitive Parity, Phase 3(2026)- TBD changeable tiers could be developed via BBSSC
Impacted Systems	TDD

[Padmanathan, Jacintha](#) as I stated in emails, I need the POs for the IDD/Analance teams to come back from holidays - tomorrow. I will meet with them then and determine what work can start when, how long Design will take and any dependencies. I will provide an update by EOD tomorrow.
