Solution:	
Team:	
Target start:	Wed Feb 25 00:00:00 EST 2026
Target end:	Tue Mar 10 00:00:00 EDT 2026
Enabler:	
Benefit Hypothesis:	By providing direct, contextually relevant links to user management functions, this widget streamlines administrative tasks. It saves time for administrators by reducing the clicks needed to manage users and access, and it improves the cohesion between the BBSSC dashboard and the broader Bell Business Portal ecosystem.
Acceptance Criteria:	Widget & Link Visibility 1. GIVEN a user has the "My dashboard" permission (as defined in BBMOMNI-4840), WHEN they view the Wireless Dashboard, THEN the "Permissions Quick Links" widget is visible. 2. GIVEN a user does not have the "My dashboard" permission, they can't view the Wireless Dashboard (including "Permissions Quick Links" widget) 3. GIVEN a user is not a BBP Administrator (as defined in BBMOMNI-4840), WHEN they view the widget, THEN only the "Manage my access" link is displayed.

4. GIVEN a user is a BBP Administrator (as defined in [BBMOMNI-4840](#)), WHEN they view the widget, THEN all three links ("Manage my access", "Manage my users", "Create a new user") are displayed.

Link Behavior

1. WHEN the "Manage my access" link is clicked, THEN the correct "Manage my access" URL opens in a new browser tab.
2. WHEN the "Manage my users" link is clicked, THEN the correct "Manage my users" URL opens in a new browser tab.
3. WHEN the "Create a new user" link is clicked, THEN the correct "Create a new user" URL opens in a new browser tab.
4. GIVEN the links are displayed, THEN an external link icon is visible next to each link text to indicate it navigates away from BBSSC.

Seed Stories:

Story 1 (Standard User View): As a standard user, I want a quick link to "Manage my access" on the dashboard, so I can easily review my own permissions without navigating through multiple menus.

Story 2 (Admin User View): As an administrator, I want to see links to "Manage my access", "Manage my users", and "Create a new user" directly on my dashboard, so I can perform my most common administrative tasks immediately after logging in.

Story 3 (Link Interaction): As a user, when I click any of the permission links, I want them to open in a new tab, so I don't lose my place on the BBSSC dashboard.

Uncommitted Objective?: No

Exclude From Release Notes: No

Technical Debt Added:

Release Info

Toggle Status: NA

Toggle Description:**Deployment Details:****Inherited:****Previous FixVersion:***Links & Attachments***External issue ID:****Release Date:****Linked Front Door****Requests:***Status Reporting***RYG Status:** Green**RYG Status****Description:****Description****Summary (from PM):**

This feature introduces the "Permissions Quick Links" widget to the Wireless Dashboard. **The visibility of this widget and its contents are dynamic, based on the user's permissions as defined in the Bell Business Portal (BBP) and referenced in the master entitlements feature (BBMOMNI-4840).**

The widget provides direct links to key user and access management pages within BBP. All authorized users will see a link to "Manage my access". Users with administrative privileges (e.g., Administrator role) will see two additional links: "Manage my users" and "Create a new user". All links will open the relevant BBP page in a new browser tab, indicated by an external link icon.

Mockups (from UX):

Please refer to the approved UX designs in Figma for the visual layout of this widget. This includes the visual treatment of the links and the external link icon.

- **Main Design Link:** [Play-To-Win-1A Figma](#)
- **ERD (content and translation):** [ERD_P2W_v1_OB.docx](#)

Technical Information (from SA):

(To be completed by the System Architect)

Other Documentation:

- **Permissions Dependency:** The rules defining user roles (e.g., Administrator vs. standard user) and their ability to see this widget are governed by the entitlements feature: [BBMOMNI-4840 - Permissions and Entitlements](#). (Link)
- **Target URLs:**
 - Manage my access: <https://www.app1.businessportal.bell.ca/cis/view/manageAccessBBP.xhtml?identityKey=196634>
 - Manage my users: <https://www.app1.businessportal.bell.ca/cis/view/manageUsers.xhtml?reset=true>
 - Create a new user: <https://www.app1.businessportal.bell.ca/cis/view/newidentity.xhtml?faces-redirect=true>
- For a complete list of detailed requirements, please consult the "dashboard requirements excel file" located within the main program epic.

Comments	
Villemin, Maxime Paul added a comment - 16/Oct/25 4:47 PM	
Changed back to analysis, we need to receive a swagger from BBP team for the new web service needed to display the URLs to the customer	
Leduc, Anne-Marie added a comment - 17/Nov/25 12:08 PM	
we will be doing the work that was planned on the sig dep 5184 on our feature 4840 and we have link the feature with yours
