| Feature Name        | 1. Warranty wireless device information                                                                                                                                                                                                                                                               |
| Feature Description | Solution provides customer details towards the customer's warranty expiration date of their mobility device.                                                                                                                                                                                          |
| Benefit Hypothesis  | <ul style="list-style-type: none"><li>Reduction/elimination of Customer confusion for account management, specifically towards warranty details</li><li>Less manual support required for Customers related to inquiries regarding warranty eligibility.</li></ul>                                     |
| Priority            |                                                                                                                                                                                                                                                                                                       |
| General Requirement | <ul style="list-style-type: none"><li>Display warranty expiration date only in the <b>Subscriber page</b> Information page area within BBSSC</li><li>Warranty expiration date will correspond to the date of activation</li></ul>                                                                     |
| Acceptance Criteria | <ul style="list-style-type: none"><li>Providing standard manufacturer warranty expiration details of device <b>from the date of activation</b>.</li><li>Information available in Subscriber page / Device Information page area.</li><li>All OEM devices included for warranty information.</li></ul> |
| System Impact       | TBD.                                                                                                                                                                                                                                                                                                  |

## Benefit Hypothesis

|                   |                                                                                                                                                                                                        |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Problem Statement | Customers unable to visually see Warranty expiration date associated to their Bell device. Requiring manual support or repair submissions to be created without details of their Warranty eligibility. |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                |                                                     |                            |                                                                                                                                                                                                                                                                                                                                                                           |                     |                                                     |
